StyleQuickShot offers quick and easy editing tools to help create a Roland style. Stylize your own Roland designs or directly map your own sounds to Roland's industry-leading drum modules. There are no limitations for the shapes, scales, time signatures and grooves, and we cover parts of the RM3, V-Drums, RM4, K-Series, JD-XI and DM series. You can even work with the MIDI tracks and use the groove/time signature directly in the DJM-900, DW-700, DW-8000 and DW-9000. StyleQuickShot features: - Create the design directly from your own sounds or use sounds from the library of Roland sounds. - Change the shape of the design with the shape editor. - Add notes and other elements to the style as desired. - Transpose the notes directly to the Roland hardware. - Use the notes as a template for further automation or as a guide for your own sounds. - Includes the 12 Roland voice patches. - MIDI support including export to Kontakt and Logic. - Automation tools, routing and automation (use MIDI automation to automate the shapes with future MIDI instruments). - Directly preview the style in the DJM-900K. - Export audio and MIDI files for use in your favourite DJ software. - Support for other Roland equipment: JD-XI/JD-X, JD-900, K7, DMX-2000, JD-V, and DM-V. - All
