Pitch 'n Time Pro 2.5 saves you time and money by processing audio twice as fast. New features. Mac processing time halved. The output gain is stored in presets. Recording in real time. Pitch 'n Time Pro 2.5 is a professional pitch correction application that allows you to change the pitch in real time. It allows you to have full control over the frequency, the beats per minute and therefore the quality of the sound. The program not only performs real-time pitch correction, but also allows you to load up to 15 presets so you can easily create your own.
